Please review the changes that I made in ss. 168.05 (6) and 168.12 (2), created in the draft. I have modified the proposed language so that those provisions refer to "a petroleum product that is a renewable fuel". I made these changes because ch. 168 regulates petroleum products exclusively and because the term "renewable fuel" is not defined in that chapter. Are the changes I made O.K.?

I think an even better approach would be to exempt only biodiesel given that biodiesel is the only renewable fuel that might fall within the scope of a petroleum product as defined in ss. 168.05(3) and 168.12(2). Please give me a call if you would like to discuss this issue.

Subject: RE: Biofuels Committee drafts, LRB-2504/P1 and LRB-2505/P1

Hi Joe and John, the exemption from the tax under the bill does not cover other implications of "receiving" fuel under s. 78.07 in this bill that the committee was concerned about, like licensure requirements and inspection. The DOR has fashioned its fuel tax program around the regulatory trigger of "receiving" fuel, and the Biofuels committee chose to err on the side of being completely clear that these taxes, inspections, licensure requirements would not apply in these circumstances (The committee received comments alleging that the DOR tends to take a very broad/inclusive view of the applicability of these regulatory programs, and wanted to avoid creating any loopholes). Therefore, the treatment of this section as in was in WLC: 0364/3 should be retained in the LRB draft.

Thanks!

Larry

Joe,

I'll discuss the s. 78.07 exemption with Larry when he returns from vacation tomorrow, and then one of us will get back to you on LRB-2505/P1.

>2. I don't recall making the decision to exclude the creation of 78.07 (5), but it does seem unnecessary. If the fuel is exempt, the issue of whether or not, or under what circumstances, it is "received" would seem irrelevant. The current law exemptions under subs. (2) and (2m) don't require a modification of s. 78.07, so I'm not sure why creating a new exemption would require such a modification. Please let me know if I'm missing something.
